

Sparebanken Møre - the Group

Presentation
4th quarter 2016

Runar Sandanger EVP January 26 2017

Agenda

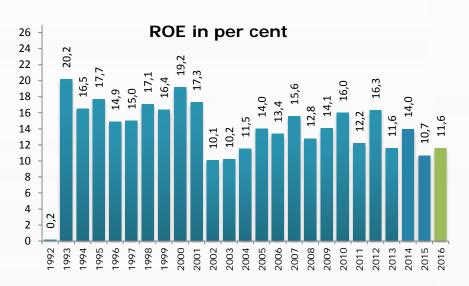

- Summary
- Introduction
- Results
- Deposits and Loans
- Funding and Hedging
- Equity and ECs
- Economic outlook and future prospects
- Appendix: Housing Market

Historical performance and highlights

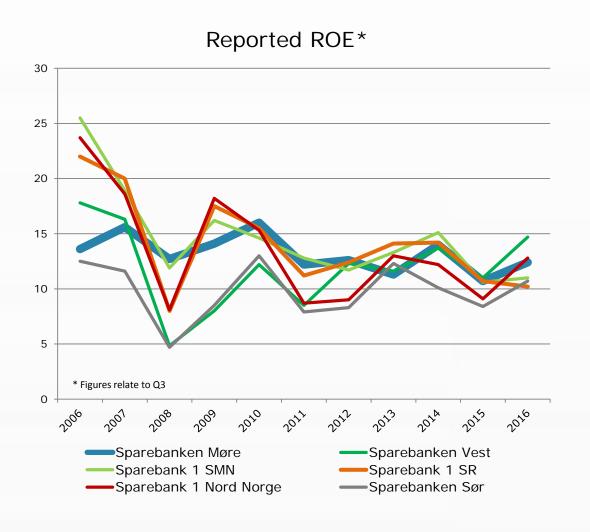

- The Norwegian economy is still facing consequences of the fall in oil prices. In our county we see the consequences differ between industries, however the total picture shows a favourable operating environment with a low level of unemployment, albeit still high uncertainty
- Total assets ended at NOK 61.6 billion by year end
- We see a moderate growth in loans, very strong growth in deposits – the bank`s capital and liquidity position is strong
- The net interest margin is under pressure following high competition, different operating conditions, good liquidity and low interest rates – and a generally improved quality of the loan book
- Low level of loan losses and low volume of loans in default

High and stable return - based on our business model

- Less volatile key figures for Sparebanken Møre compared with peers
- Consequences of policy decisions
 - ✓ Contract banking and a clean balance
 - ✓ Core banking focusing on traditional banking services
 - ✓ Focusing on lower growth to the corporate market
- Also compared with peers; our results are achieved with a high level of capital

Introduction to the bank and the market

New CEO

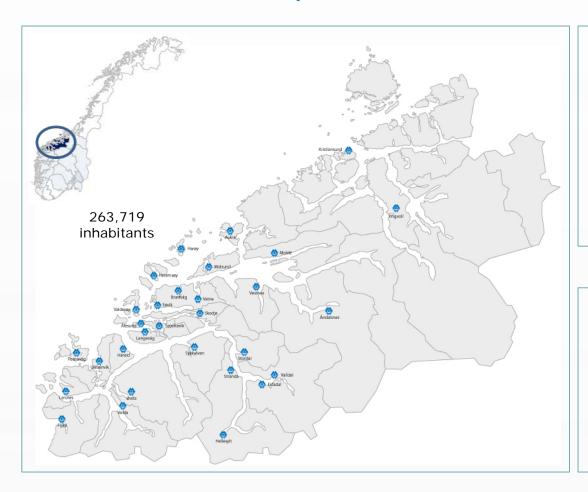

Trond Lars Nydal (46 years) is appointed CEO of Sparebanken Møre from 1 April. He comes from a position as EVP and Head of Retail Banking Division in the Bank.

Trond is a Business School Graduate from Norwegian School of Economics (NHH) in 1997. He was employed at Sparebanken Møre in 1997 and has held several leading positions within the Bank.

- > Sparebanken Møre is rated A2 (stable outlook) by Moody`s
- Møre Boligkreditt AS` (100 % owned covered bonds company) issues are rated Aaa by Moody`s

Sparebanken Møre's market area

Diversified business structure in the region

- Fisheries/seafood
- Aluminum
- Marine construction
- > Tourism

Agricultural

- Furniture
- Offshore services
- Oil & gas

Møre og Romsdal county

- > 263,719 inhabitants
- The 3rd largest GDP per employee among 19 counties in Norway
- Norway's 3rd largest export county
- Diversified business structure
- Sparebanken Møre with about 30% market share

Selected companies in Møre og Romsdal

Møre og Romsdal – Diversified industries

Oil and offshore

- ➤ Norwegian maritime areas are rich in natural resources, and play a very important role in commercial activities in Møre og Romsdal
- > The petroleum sector has been responsible for 1/4 of the total investments in Norway
- ➤ Nyhamna in Møre og Romsdal receives gas from The Ormen Lange Oilfield, and delivers from there through another pipeline to Easington UK

Maritime industry

- > A large part of Norway's strength in the field of advanced marine operations is concentrated within an hours drive from the town of Ålesund.
- ➤ The region is home to 14 shipyards, and is one of very few complete maritime clusters in the world. The order books are good for most of the yards, the industry has been highly skilled to adapt to other building projects than oil-related
- > Over 75 % of the worlds large, hi-tech offshore vessels are designed in our area
- ➤ 40% of the world's most advanced offshore fleet is controlled by 19 ship owning companies in the region some owners last year laid up vessels to balance the market

Fisheries and seafood

- ➤ Norway has beaten all previous records and has exported seafood worth NOK 91,6 billion in 2016. This is an increase of 23 per cent or NOK 17 billion compared with the previous year. Møre og Romsdal is by far the largest food exporting Norwegian county, responsible for 1/3 of the nations total food export
- ➤ In addition to fish and fish products the food production and exports also include agricultural products (fruit and berries) and other foodstuff industry (pizza, cured ham, salami, etc.)

Tourism

- > Trollstigen Mountain Road is one of Norway's most dramatic and most visited attractions
- ➤ The UNESCO-protected Geirangerfjord was visited by more than 180 cruise vessels in 2016
- ➤ The city of Ålesund is known for its architecture in Art Nouveau style, its surrounding fjords and the high peaks of the Sunnmøre Alps

Summary

Norway

- •The Norwegian mainland economy has grown since late 2009
- Large government budget surplus, high petroleum investments and strong household sector
- Ability and willingness to move monetary and financial policy in more expansive direction if needed
- Well managed petroleum wealth, value of government pension fund of more than NOK 7 500 billion
- Good labour market performance with low unemployment and high participation

Møre og Romsdal

- Population of just above 260,000
- Dominant industrial and commercial sectors are fisheries, tourism, maritimeand oil industry
- Responsible for approximately 1/3 of Norway's total export of food, mainly fish and fishery products
- •Stabilized level of unemployment during the quarter, 3.1 %, national average of 2.8%
- Below average national real estate prices and above average disposable income levels

Sparebanken Møre

- 8th. largest savings bank in Norway, solid financial performance with total assets of NOK 61.6 billion
- Market leader in main market, the county of Møre og Romsdal
- •70.2% of lending to retail customers, of which more than 95 % are mortgages
- •Strong capitalization reflected by Core Capital of 17.0%, Core Tier 1 of 14.7% and a Leverage Ratio of 8.5%
- •The Bank is rated A2 (stable) by Moody's

Result as a percentage of average assets

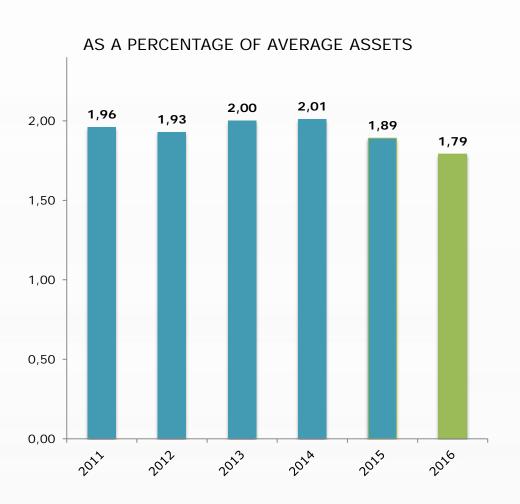

- more than 10 years with very low losses

Lower net interest income

Net interest income is lower than in 2015

- Strong competition on loans and deposits
- ✓ Improved quality of our loan book
- More liquidity on the balance sheet with higher quality
- Still low interest rate level with low return on free capital
- ✓ Gradually higher funding margins through 2015, levelling out in 2016

Other operating income

Higher other operating income, compared with 2015

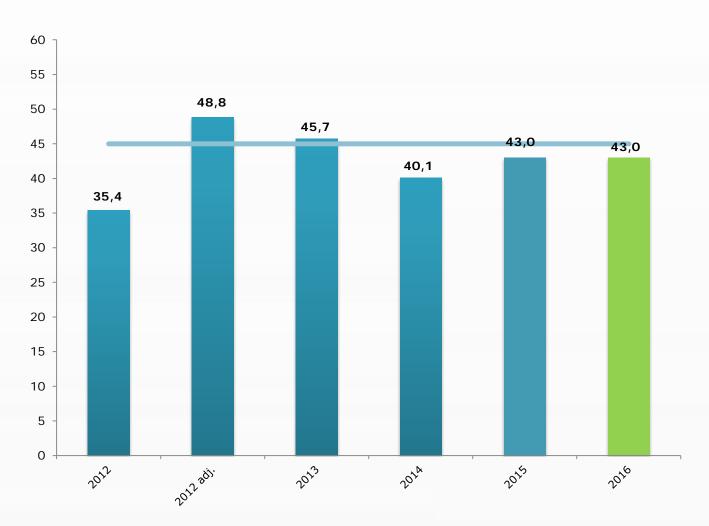

- Slightly higher income from customer`s hedging activity in the fx market, lower from the interest rate market and from financial instruments
- The market value of our liquidity portfolio is higher
- The Visa Transaction gives a strong positive contribution to other income
- Lower income from guarantees and from our real estate brokerage activity

Development in cost/income

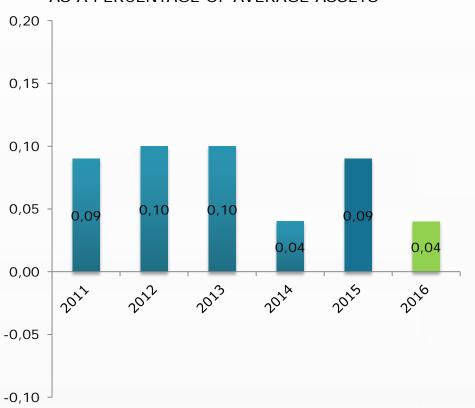

- target will be met

Losses at a very low level

AS A PERCENTAGE OF AVERAGE ASSETS

Losses totalled NOK 22 million

• Corporate: NOK 9 million

Retail
 NOK -6 million

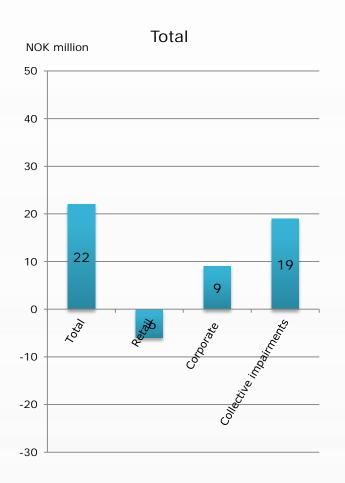

• Collective impairments NOK 19 million

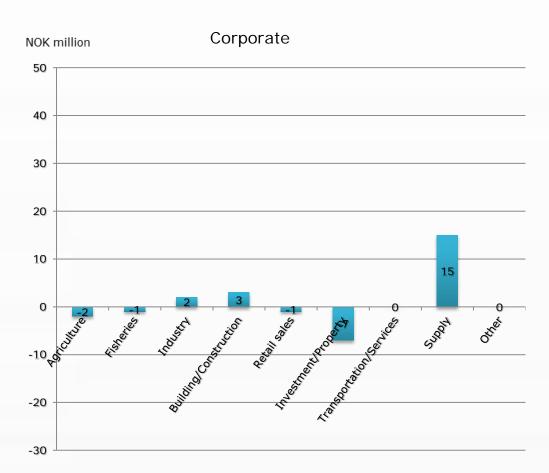

Total impairments amounted to NOK 360 million by 31.12.2016

Funding and hedging

High deposit to loan ratio

- total financing by year end

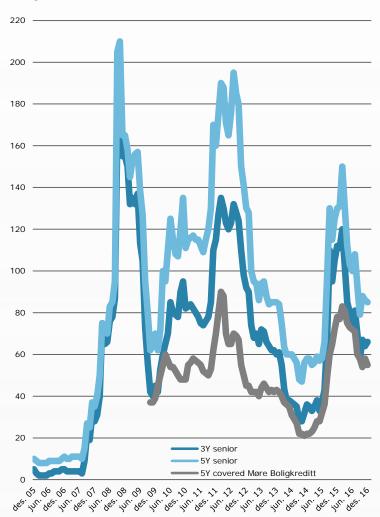

- Deposits from customers are the Group`s most important source of funding and we maintain a high deposit to loan ratio (61.8 % in the Group)
- ➤ Total market funding ended just above NOK 21.3 billion by quarter end more than 80 per cent with remaining maturity of more than one year and in total NOK 2 billon lower than by year end 2015. Our market access is very good
- Senior Bonds: Weighted average maturity of 1.72 years, Covered Bonds with a weighted average maturity of 3.88 years (FSA defined key figures)
- By year end five of Møre Boligkreditt`s bond issues have a size that qualifies for Tier 2A liquidity in LCR. Møre Boligkreditt AS will going forward issue and build up more loans in this category

Lower funding margins

Margins

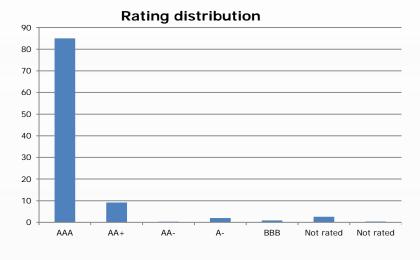

- The bank's funding in excess of deposits are covered in the money and capital markets, margins are shown in the figure
- The figure has 12 years of history. The time series shows the price of 3- and 5-year financing at a floating rate (margin compared to 3 months NIBOR), based on prices on the bank's own senior bonds and covered bonds issued by Møre Boligkreditt AS
- Through the first half of 2015 we saw a slight increase in borrowing margins, but after the summer we recorded a sharp increase in the rate of change, accelerating especially in the second half of September and by Norges Bank's interest rate decision. Margins rose further until the end of February 2016 and the liquidity was weak. Margins increased most for senior bonds here we also saw the largest margin reductions in late Q1 and until summer 2016
- The positive development in margins was temporarily set on hold in connection with brexit, but continued through late summer and fall. In the fourth quarter we again saw increased borrowing margins ia as a result of uncertainty related to European banks, but this development was partly reversed towards the end of the year
- In addition to rating the LCR rules have led to differentiated margin pricing depending on size of the issue

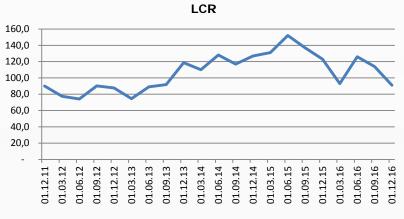

The quality of the liquidity portfolio is good

- and LCR compliant (figures in NOK million)

Low risk profile in the interest rate, equity and FX markets

- ✓ Sparebanken Møre has no trading portfolio in these or other similar markets/instruments
- ✓ Client's positions are hedged in the market
- ✓ The bank's positions are hedged

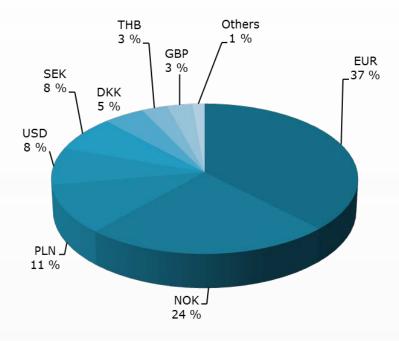

Number of commercial payments

or commercial payment

Number of payments per currency distributed (outgoing)

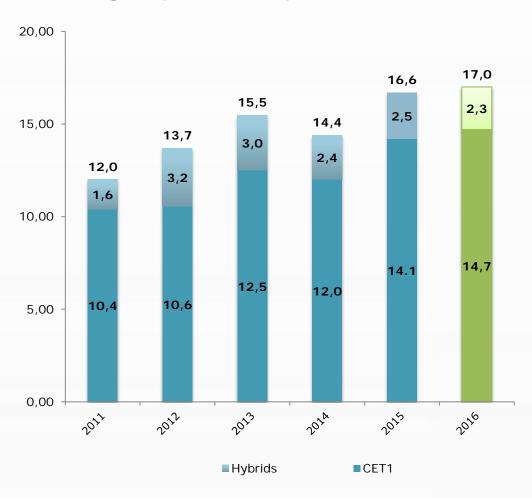

Equity and ECs

Equity and related capital:

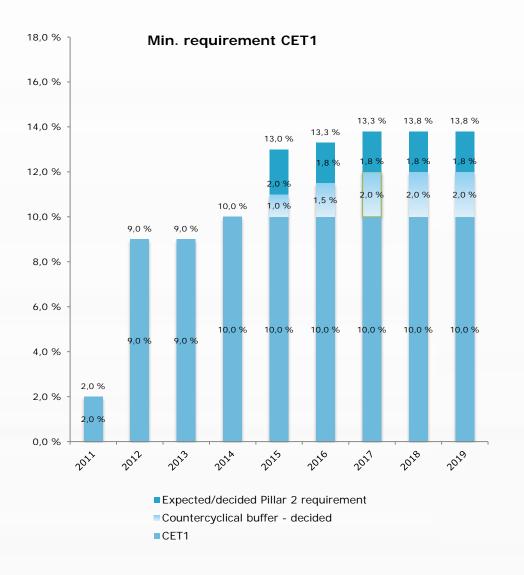

- strong capital compliant with new requirements

- Sparebanken Møre has built up our Core Capital over the last years and we are compliant with the new requirements
- Our capital is calculated according to the IRB Foundation Approach for corporate commitments, IRB Approach for the retail market
- From year end 2015 we have been hit by the Basel I floor

Strong Capital

- FSA performs regular assessment of banks' risk and capital (SREP). In the assessment, it is assumed that the bank must hold capital in excess of the minimum requirements for risks the Bank is exposed to and which are not, or only partially, covered in the minimum requirement under Pillar 1, the Pillar 2 requirements. The FSA has set Sparebanken Møre`s Pillar 2-requirement to 1.8 per cent
- Sparebanken Møre will maintain a strong financial position as the leading bank in the region and will follow the announced schedule related to core capital. Our capital targets are:

√ Total Capital: Min. 17.3 %

✓ Core Capital: Min. 15.3 %

✓ CET1: Min. 13.8 %

Dividend policy

"Sparebanken Møre's aim is to achieve financial results which provide a good and stable return on the Bank's equity. The results shall ensure that the owners of the equity receive a competitive, long-term return in the form of dividends and increase in the value of the equity.

The equity owners' share of the net result being set aside as dividend funds, will be adapted to the Bank's equity situation. Sparebanken Møre's allocation of earnings shall ensure that all equity owners are guaranteed equal treatment."

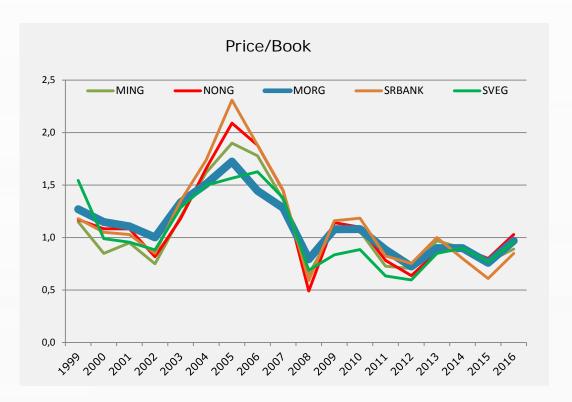

Given Sparebanken Møre`s strategic plan and stipulated return on equity, we expect the normalized dividend payout ratio to be in the range 40-50%

Dividend and EC-price

- > The PCCs/ECs of Sparebanken Møre have been listed at Oslo Stock Exchange since 1989
- ➤ Total EC capital: NOK 989 million by December 2016
- > In general Norwegian savings banks are still traded at a discount compared to book value

Moderate production growth in Møre og Romsdal in 2017

Most sectors are doing well

- Higher exports from traditional sectors
- Increased activity in the public sector and within construction
- Further decline in oil investments and reduced production in the delivery industries
- Continued restructuring in the labour market
- Unemployment seems to be levelling out. In December 2016 the registered unemployment rate was 3.1 per cent

Most important risk factors:

- International economy and politics
- The oil price and oil investments
- The Norwegian krone
- Domestic house prices

Summing up and outlook

From the CEO:

- Continued economic uncertainty
- ➤ The strong competition will continue
- Main targets from our business plan Møre 2020 will be met
 - ✓ CET1 > 13.8 %
 - ✓ ROE > 10 %
 - √ Avoid losses
 - ✓ Healthy financial structure

Appendix:

The Housing Market

Key characteristics

Home ownership

- Among the highest in the world around 80% of households own their own home
- · Limited buy-to-let market

Mortgage lending requirements

- LTV shall not exceed 85% in general, and not exceed 60% for second homes in Oslo
- Min. amortization of 2.5% per year or max. 30 year repayment if LTV exceed 60%
- Debt-service ability should be stressed for a 5 % increase in customer interest rate
- Gross household debt-to-income ratio shall be below 5
- Banks have the opportunity to waive regulations by 10%, but only 8% in Oslo

Personal Liability

- Borrowers are personally liable for their debt also after foreclosure / forced sale
- Transparent and reliable information about borrowers available to the lenders

Mortgage lending

- More than 95% of all mortgage lending is granted by banks / mortgage companies
- Approximately 90% of residential mortgages are floating rate loans
- The interest rate on floating rate mortgages can be increased with six weeks notice
- Typical residential mortgage maturity is 25-30 years

Social benefits

- · According to OECD, Norway has the best unemployment benefits
- On average about 60% of previous salary paid benefit for 104 weeks minimum

Tax incentives

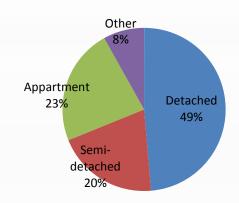

- All interest expenses are tax deductible at capital gains tax rate (25%)
- Property is given preferential treatment when calculating wealth tax
- Capital gain on dwellings is tax free under certain circumstances

Differences in housing types and prices

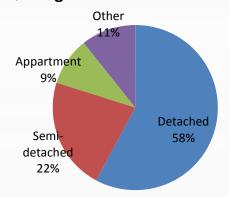

Household housing type distribution

- Norway

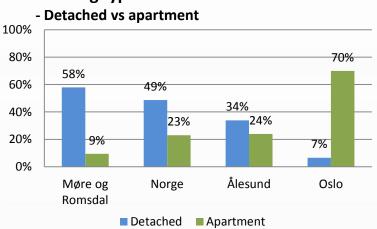

Household housing type distribution

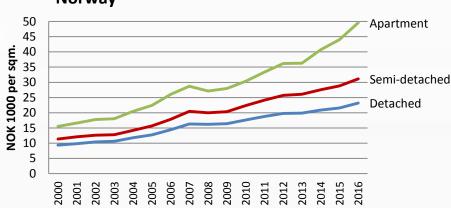

- Møre og Romsdal

Housing type distribution

Price development / housing types -Norway

In Møre og Romsdal county detached and semi-detached housing are more common.

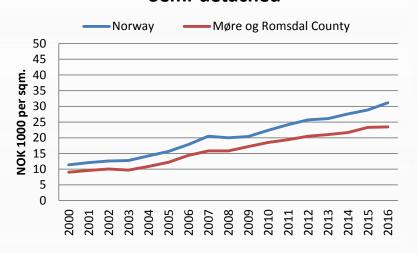

Differences in development of housing prices

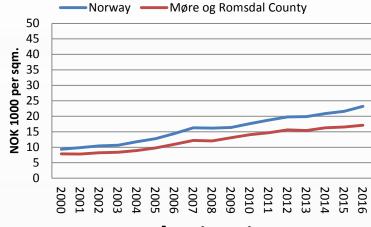

Year-over-year average growth in Norwegian housing prices by September 2016 is 12.8 per cent, compared to 4.8 per cent in Møre og Romsdal.

The average national price per square meter in Norway is higher than the average price per square meter in the county of Møre og Romsdal.

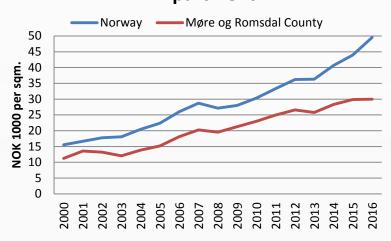

Semi-detached

Detached

Apartment

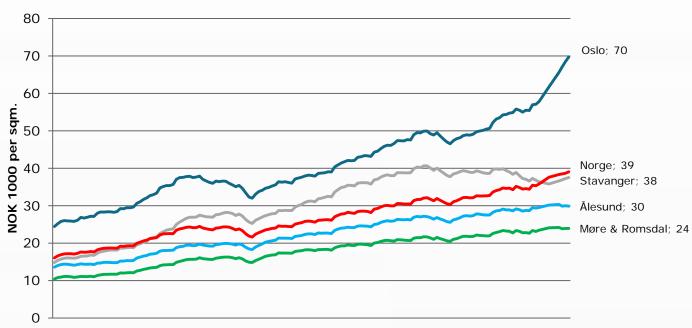

Source: Eiendomsverdi AS (Price index March 2016)

Differences in house price

Development in average housing prices 2003 - 2016

In Oslo the average growth in house prices was +23.3 per cent last twelve months, compared to -2.6 per cent in Stavanger, and +6.7 per cent in the city of Ålesund.

The median house price in Norway was NOK 2.95 million in December 2016, compared to NOK 2.3 million in the county of Møre og Romsdal.
